Capt. W. H. Nelson, formerly editor and owner of the Pioneer, has again engaged in the newspaper business, and will soon or later engage in journalism, perhaps in St. Louis or Chicago.—Smith Center Pioneer.

—Charles Tracy says the farmers of his locality alone can supply a sugar refinery with cane.

—The City jail will soon be ready for occupancy. Who will be the first one to go behind the bars?

—Read R. A. Handy's letter in this paper and then go to talking up the sugar plant subject.

—The Chicago Fair is selling goods at astonishingly low prices now before Rosenberg starts for Europe in April.

—The Smith Center Pioneer says that town will by March 15 have water works and electric lights in operation.

—In this paper may be seen articles copied from other papers mentioning two proposed railroads for Phillips county. Let them come.

—Last Sunday and Monday trains were behind time on the Rock Island owing to heavy snows in Colorado. The storm was not heavy here.

—Hard and soft coal kept by J. H. Decker & Son. Can order by telephone or leave your orders with Wm. Boughton, who will deliver the same.

—The supper given by the ladies of the M. E. church in Cummings' new brick last Tuesday evening was well attended we learn and was an enjoyable affair.

—Blind Boone has a watch made especially for him. It strikes like a clock. It tells the time of day, the day of the week, the day of the month and the changes of the moon. It cost \$1.00.

—Charles O. Wilcox, aged 27, was married to Miss Delia M. Curl, aged 19, Rev. Theo. Bracken, at his residence on Sunday last. The contracting parties are both from Long Island this county.

—The Oberlin Opinion says there have been in all 17 cases of small-pox and 3 of varioloid in that place. There were no deaths and the sick people are getting well rapidly. No further trouble is anticipated.

—Who will draw up and publish a call for a township or county convention to discuss the sugar mill matter? Let some leading business men and farmers set the ball to rolling. The whole county is ripe for action and only needs a leader.

—Some railroad men recently offered to purchase the lots owned by S. C. Cummings just south of Senator Granger's residence. They did not make a bargain. Every now and then strangers are quietly buying Phillipsburg real-estate.

—Seventy subscribers to the HERALD made payments on their subscription account in January. Over 100 paid in December. We are proud of our list of subscribers. There are some who have not yet come in. We are looking for them.

—E. H. Evans has recently made a great improvement in his meat market. Everything inside looks neat and clean. Mr. Evans has had long experience as a butcher and always furnishes his customers with the best meat the market affords.

—Jacob Thompson, of Agra, was several weeks canvassing for subscribers to books in southern Nebraska. He says the people up there complain more of hard times than they do in Phillips county and money is much scarcer up there than here.

—The Colorado papers state that there is more snow in the mountains now than fell there all last winter. Heavy snow in the mountains means more water in the streams, and more rain on the plains next season than there was last, and all this means great crops in 1889 for Kansas.

—Blind Boone's concert last Friday night at Cummings Hall was largely attended and we learn the Company cleared about \$100.00. The entertainment was good. Boone is a musical prodigy. Miss Stella, the lady vocalist pleased our people highly.

—On Wednesday morning a switch was left open near the Rock Island depot. The morning west bound passenger train ran off on the side track and collided with an engine on the turn-table. The engineer of the incoming train had applied the air brakes so that no serious damage was done to the engine but it was a smart little jar.

—As the section men were on their way to work the other morning they discovered a broken rail east of here. The passenger was already in sight, but a signal was given for them to stop. After examining the rail the engineer ran the train slowly until they had passed over in safety. The rail was then replaced by a new one. Agra Graphic.

—Our old friend Elihu Hill says when he dies he wishes to be wrapped in the American flag before his body is laid away. We have agreed to make a few remarks on the occasion. We hope we may not be called upon for many years to perform that service but that the jolly old gentleman will live to vote at several presidential elections.

—The Osborn Presbytery met at Phillipsburg last Tuesday. The following delegates were in attendance: Rev. J. M. Batchelder, Osborn; Rev. Jacob Baay, Smith Center; Rev. Jos. Patterson, Downs; Rev. J. W. Van Eman, Cora, Kan.; Rev. Archibald McLaren, Goodland; Rev. Robt. Liddell and James Haswell, Rawlins county; Rev. A. F. Allen, Norton.

—Dr. Bair, of Omaha, who was advertised the past two weeks to be at Phillipsburg 28th, 29th and 30th of Jan., writes us he was prevented from coming by reason of sickness and that he will visit Phillipsburg at some other time.

PERSONALS.

—Our friend ex-postmaster D. W. Smedley, of Agra, was a caller Monday.

—"Doc" Curl, of the Long Island Leader, attended his sister's wedding here last Sunday.

—E. J. Perkins, of Rushville, Wyo., was a caller Tuesday. He says the HERALD articles on the sugar raising question is stirring up the people.

—O. E. Johnson writes his partner Mr. French from Wilmot, Ohio, that he arrived safely home, but found his sister very sick. Mr. Johnson is expected home in Phillipsburg again about the first of next week.

—A. C. Hall and V. B. Darnell, of Crystal township, were callers Wednesday. They feel a deep interest in the subject of cane raising and sugar manufacturing. They hope to see a refinery in this county in less than a year.

—M. H. Johnson came up from Kansas City yesterday, and is getting ready to take his family with him to Little Rock. He will sell his household goods at auction, Saturday, at his residence in the north part of town.—Kirkwin Chief.

—The HERALD's old friend, Roderick Stewart, who resides in the Solomon Valley, was a caller Tuesday. He likes Kansas, but has had hard luck for two years. He lost a nice bunch of hogs last fall and has been in quite poor health this winter. He likes the HERALD and feels that he cannot get along without it.

—Mr. R. H. Thurston, Chief Clerk in this division of Railway Mail Service, was in the city Thursday of last week. Mr. Thurston's business here was to examine the postal clerks running between Phillipsburg and Colorado Springs. Clerks Hutchison, Marks and Van Cleve took a turn at the "sweat box," and it is reported to us that their per cent. was good.

—There is no town in all northern or northwestern Kansas whose future prospects are brighter than those of Phillipsburg. The town is beautifully located; it is the county seat of a large county of twenty-five townships; it is located in the center of the county and has no rival towns within thirty miles; it is the division on the trunk line of the Rock Island railway half way between St. Joseph, Mo., and Denver, Colorado. The railroad officials own about 1,600 acres of land here and it is their "pet town." It has been announced that the Rock Island branch from the southeast will be built this summer making what is termed the "Kansas City cut off" quite materially shortening the distance from Denver to Kansas City. There is every indication that Phillipsburg will be one of the largest towns in this part of Kansas. Its population is now about 1,500 or possibly 1,600. In less than three years it will probably be double that number. Property can be purchased at very reasonable prices.

—The Dispatch of last week pitches into County Clerk Hartman because at a certain session of the commissioners \$481. was allowed job printing houses outside of Phillips county. Mr. Hartman invites Mr. McNay over to his office to note what the \$481. was paid for. The record books of the probate judge's office, the large tax books, the heavy court dockets, the ink, pencils, and many other articles purchased of eastern houses the local printing offices cannot furnish. Mr. Hartman says he has ordered from the east very little job printing that could be done by local offices.

—Our Agra correspondent in a private note to us says of his allusion to the new paper in his correspondence two weeks ago: "Some think my article two weeks ago was insinuating of their inability to secure the business men here to advertise. It was not intended as a thrust only to show a person must not figure on a too close margin, as your experience teaches you. I am a believer in a home paper and have even raked them over the coals myself for not giving it their support."

—Sewell, Smith and Twitchell this week told us that they had decided to build a railroad, the Q. B. & H. (the Quack, Bugdust and Humburg) and they want to advertise for 5,000 ties forthwith or sooner. They solemnly informed us that the ties they want are neckties. We charge them five cents per line for this local, and if they refuse payment we suggest that the neck-ties they may get will be made of hemp.

A prominent physician was seen buying a barrel of onions, and being grieved about his purchase said: "I always have boiled onions for dinner for the benefit of my children. I like onions, too. They are the best medicine I know of for preventing colds. Feed onions raw, boiled or baked, and they'll grow up healthy and strong. No worms, no scarlatina, no diphtheria, where children eat onions every day."

—There is now a clearance sale going on at Rosenberg & Michalsky's. To make room for their spring stock they will close out the following named goods at the prices named: Comforters at 55 cents; blankets for \$1.00 a pair; flannel for 16 cents per yard; a better quality of blankets at reduced prices; double width cashmeres 20 cents per yard, some as low as 12 cents. All other goods in proportion.

Interesting Letter About Sugar Manufactory.

The following letter from R. A. Handy to Commissioner John Hahn-enkratt explains itself:

CAMERON, Mo., Jan. 22, 1889.

DEAR SIR: I just came from Fort Scott where I saw the sugar works and got a statement of the amount of work done there last year. It is a success but takes more money to start than I supposed. We can do but little short of \$50,000, but if we can get \$10,000 bonds voted there this spring we can manage the balance. I find the legislature is likely to pass an act empowering townships to vote bonds to the amount of \$10,000. If they do we are all right. Fort Scott paid a dividend of 9 per cent over all expenses without any aid from the state. Their average daily run was from 200 to 300 tons a day for three months and 12 days at \$2.00 a ton. Thus paying out from \$400. to \$600. a day for that time, making in all paid out for that commodity all told about \$40,000 to \$45,000. Now if we had one half that capacity to cost \$50,000 we could pay out \$20,000 to \$22,500 and would help Phillips county. Their plant cost something over \$120,000 but they tell me it can be built now for less than \$100,000. They make from 15,000 to 20,000 pounds of sugar daily and it is all stuff about sorghum not making sugar. It will make good sugar and if such an enterprise can be started at Phillipsburg it will be a grand thing for the country. I will be back there the last of next month and will see other institutions before I return if possible.

Yours Truly,
R. A. HANDY.

Sugar at Osborne.

OSBORNE, KAN., Jan. 26.—A large delegation of farmers and business men of this city met here to-day for the purpose of discussing the sugar works industry. Hon. Martin Mohler of Topeka, secretary of the State Board of Agriculture, was present and addressed the meeting in a very interesting manner. A large number of our best farmers took an active part in the discussion and all were favorable to the enterprise.

The stockholders of the sorghum sugar mill at Conway have decided to enlarge their plant next year. The factory began work July 15th on the amber cane, and ran steadily until December 1st, working up the product of 1,200 acres. The United States Sorghum Inspector says the Conway sugar is 98 per cent. pure.
